

Haiti -House #161 Marise Louis Family

Marise Louis has six children, five of whom live with them. She and her husband Denis St. Dick, do a little farming to try to make a living and support their family. Two of her children are very involved in the faith life of the parish. One is an altar server. The other lectures on Sundays and also sings in the choir. For a while besides farming, Marise used to also cook and do laundry for some of the employees of one of the mission groups that worked in the Jeremie region for a while. The mission group has moved out, making the financial situation and living conditions of the family even more dire. Their hopes and prayers for a decent home (see "before" picture) happened in September 2019. They send their best wishes and sincere appreciation to all those who have helped to make this dream a miraculous reality.
