

Haiti – House #166 The Marie “Aimee” Michel Family

Aimée and Eric Michel are a sister and brother in their 70s who have lost their spouses. Aimee had three children of her own and now lives with her brother Éric and few other family members in the dilapidated and crumbling shack you see in the “Before” picture. Although, as you can see, Aimee looks good, her health has been failing. She has a strong faith in God and regularly goes to church although she lives quite far from the parish church. The HMI selection team hopes that by building this family a new home, their overall health can improve and they will be in a much better environment. They send their prayers and gratitude to all who have in anyway made this dream come true for them in October 2019.
