

Haiti – House #173 The Philippe Family

Judith Philippe is a single mother of four. She lives with three of her children in this pitiful hut. She is a butcher by trade but now she rarely can afford to purchase animals to kill and sell. She also does a little farming, selling what she can to take care of her family. She and her children regularly come to church. She has been waiting and praying for many years that God could take her out of this miserable situation. Her prayer has been heard and now it is her turn to move to a more decent place to live with her family. She gives praise and glory to God for this wonderful grace and asks him to bless all the HMI benefactors as she begins a new year and new decade in a beautiful, safe and secure home.
