

Haiti - House #177 Salvado Jeudy & Carine Bonhomme

Salvado Jeudy and Carine have a son. He is a farmer and Carine does a little Commerce by selling some of their produce. They work very hard to take care of the family. They are also regularly at Sunday mass thanking God and asking Him to help them to one day be able to be in a decent home. They have made a lot of sacrifices in order to purchase a little piece of property in order to have the possibility of receiving one of the HMI houses. The selection committee decided it would be good to encourage them and reward their efforts. The Salvado Jeudy family sends their profound thanks and appreciation for this life changing gift in their lives.
