

## **Haiti - House #185 Julienne Pierre Family**

**Mrs. Julienne Pierre is a widow in her late 70s or early 80s. (Like so many older people in Haiti, she doesn't know her exact date of birth since they didn't get birth certificates back when she was born!) She doesn't have any biologic children however she adopted a son also provides a home for two nephews and her brother. She is still raising a few goats, some sheep and chickens although her sight is seriously declining. She is catholic but can no longer walk to the church on Sunday. She has been praying for God to somehow help her get a new home where she could raise her family. God has heard her plea and in May 2020, her prayer was answered. She and all her family send their prayers and deepest gratitude for the blessing of a new home.**
