

Haiti - House #194 The Moise Family

Celhomme Moise (61) and Myriam Dorismond (60) have 2 children. Celhomme is the driver of the HMI compound truck used to transport materials and supplies to all the various projects. He has been working for Fr. Joe (sic: HMI) for many years. His wife sells food staples and other items in Jeremie. It is with great joy that because of the abundant generosity of our donors, we are finally able to help him build a more decent place to live with his family in Bec's s/d. "Moise" is never without a smile. It is with great joy that we have informed the Moise family that they will be the recipient of one of the 3 houses for August, 2020. You can be assured that even the most beautiful and sincere smile one could ever see has now been magnified even more. With overflowing joy in their hearts, the Moise family sends their deep appreciation and prayerful thanksgiving to all who helped in any way to make this impossible dream a reality.
