

Haiti - House #197 Riguel Hyppolite

Mr & Mrs Riguel Hyppolite are shown here in the “before” picture with three of their seven children. Riguel is a 45 year old farmer and has training as a cement mason. He works periodically when he is needed on some of the HMI houses. His wife, Marie Linotte Charles, is 43. She takes care of the household and also helps supplement the family’s income by working a little roadside vender stand. For years, the Hyppolite family, who are active members of the catholic community, have been praying that God would bless them with one of these lovely new HMI houses. What a wonderful moment in their lives when they were advised that in September 2020 their prayers would be answered. The house was completed on September 7th. The family was so excited that they would get to move in on the birthday of our Blessed Mother, they couldn’t sleep so they moved into their new home at 4 AM! They send their heartfelt thanks and assurance of prayers for all who in any way helped their pleas be answered.
