

## **Haiti - House #201 The Rosemene Jean Louis Family**

**Rosemene Jean Louis is a 48 year old single mom with five children. Three of them along with four grandchildren live with her in the crumbling dwelling you see in the “before” picture. She is a very strong, courageous and hard working woman who does some farming, selling some of whatever she can to take care of her family. She is a devout catholic who finds time to be part of the parish church cleaning committee. She and her family have been praying that one day they might receive the miracle of a new home in order that they could leave the damp and deteriorating place they have been calling home. In October 2020, the miracle happened. They rejoice in the goodness of God by way of the HMI donors that have made this possible. They send their prayerful thanksgiving to all who helped to bring about this blessing in their lives.**
