

## **Haiti - House #202 Evens Michel Family**

**Evens Michel and Marie Edeline Louis have four children and a grandchild. Evens has training as a stone mason and as almost all countryside people, does subsistence farming. His wife, Edeline, walks the approximately five miles to Jeremie every day except Sunday working as a house keeper for someone in Jeremie. She attends Sunday Mass regularly where she has prayed for many years that God could intervene and help them out of the misery in which they found themselves, especially during the tropical storm and hurricane season. Both Evens and Edeline are hard workers. Although they had been hoping for years to try to build a decent place to live, Hurricane Matthew in October, 2016 forced them to abandon any plan to build a better house for their family. The HMI selection team is delighted to bring the news to this hard working couple that their hopes for a better place to live have been revived. The news brought great rejoicing and deep appreciation to the donors from this family.**
