

Haiti - House #211 - The Noel Family

Valdie Noel is a 31 year old single mom who is living now with her brother in this pitiful place you see in the “before” picture. Her daughter is five years old. They both have basically been abandoned by the father of the child. She sells used clothes to try to take care of her child as well as doing a little family farming. She is a very hard worker and attends Mass every Sunday, asking God somehow to help her in this desperate circumstance in which she finds herself. God has heard her plea and by His grace and the generosity of the HMI donors, January 2021 will be the beginning of a new life for Valdie and her daughter. They send their heartfelt appreciation and their prayerful thanksgiving to all who helped in any way to make all this possible.
