

## **Haiti - House #218 the Pierre Louis Family**

**Jameson Pierre Louis is 36 and his wife, Benia is 33. They are both teachers. Jameson also does maintenance work at St Brigitte school. Benia helps as a substitute. As all Haitians that live in the countryside, they have a small garden. They have two children and as you can see in the “before” picture were in a dire need for a house but had not been able to purchase a piece of land. Now they have been blessed to reach this necessary step, following HMI's selection team's policy to help our teachers to live in a decent place. We are so happy to put this hard working and prayerful family into one of the April 2021 homes. They send their heartfelt thanks and appreciation to all who helped in any way to bring about this miracle in their lives.**
