

## House # 25 - Voltaire

**Mrs. Henriette “Yeyette” Voltaire is such a lovely and patient soul. She has been hoping and praying that God would somehow get her a decent place to live. She is such a good collaborative and devoted person with a great heart, faith and generosity though extremely poor. Although she was never successful enough in educating her only daughter, she always advised the youngsters and especially young women to behave and prepare a better future by keeping on going to school and to church. Prior to the “miracle” of a new house, funded and constructed by HMI, she lived in the pitiful condition pictured on this page with her husband, her grandson and few more people.**
