

House # 26 - Estanie

Mrs Estanie St. Vil lives in the community of Debarasse. Debarasse is a very remote, mountainous region of Haiti about five miles from Numero Deux. Some of the poorest people in Haiti live here. In order to attend church, requires a five mile walk each way and to go to Jeremie is another five miles. Mrs. Estanie is a widow with 4 children. She lives with her daughter and her grandchildren. She is a member of the prayer group Fanmy Bondye (Family of God) and a faithful worshipper each week. As you can see by the picture of her current home, she is very poor. When it rains, she cannot stay in her house since the water gets easily in through the roof. It is with great joy that she welcomes the news that she will finally get a brand new house in February 2014 thanks to the hard work and the generosity of HMI supporters. Mrs Estanie sends her prayers and heartfelt thanks. (Of special note – this is the first house HMI has built in this community. The distance and treacherous terrain makes it much harder to accomplish much of the practical and financial constraints that are required. Because of the extreme need and circumstances, the HMI Numero Deux team decided to commit themselves to this project.)
