

Haiti House #402 Jean Tony Antoine

Jean Tony Antoine is one of HMI's workers. He was highly appreciated by Engineer Paul as a man who works very hard. He and his wife, Rosalie Neptune, have two children and live in Numero Deux. They are trying very hard to improve their lives by education. Rosalie is studying to be a nurse which will ultimately benefit their family. Still a house seemed impossible until God stepped in and called out to Haiti Mission. They are thrilled to be leaving their pitiful house behind in favor of their new, decent home.
