

House # 44 - Fouyol

Mr Benito & Mrs Marie Luce Fouyol were married in the Jubilee Year 2000 while Fr. Joe was pastor of Our Lady of the Assumption parish. Fr. Joe remarked how special to him was this couple because getting married in the Catholic Church was then and still is somewhat of a rarity because of local mores. At the time of construction of their new home in February 2015, Mrs. Marie had been sick for many years as a result of diabetes. The couple lost almost all they had to save her life. Although sickly, she worked some for Fr. Joe when he lived in his little home that he lovingly name "Kay aviation" or "little house by the airstrip" and was in particular in charge of the laundry that she meticulously cared for. She was one of the first women to begin the little business of selling fruits under the tree at the airstrip that serves as the airport of Jeremie. The Fouyols property and the dwelling you see in the "before" pictures is across the airstrip in the community of Lot bo terren. From time to time Mrs. Marie Luce would come to Sunday mass but with great difficulty since her disability made it hard for her to walk that far. HMI was happy to partner with our dear donors in building a safe, lovely and especially healthy home for the Fouyol family.
