

## **House # 55 – Hilter Antoine**

**Mr. Hilter Antoine and his wife have been waiting and praying for many years that God could somehow bless his family with a new home. He lives behind the HMI compound, is a very hard working farmer with a large family of ten children, two of which – Toto and Jojo – are always there to help the HMI teams with preparation of family distribution supplies. He has always struggled to make sure that his children go to school and go to church. Thanks to all who made this “miracle” possible.**
