

## Home# 62 - Bibiane Louis

**Mrs. Bibiane Louis lives with her husband Frantz Felissaint, their five children and a grandchild in this crumbling dwelling. She is a very hard working woman and always ready to help everyone in her neighborhood. She and her husband have a garden from which they produce vegetables for themselves and for sale at the market. She is a woman filled with faith and constant hope who does her best to attend sunday mass regularly despite the long distance she has to walk. Given the terrible condition of her house, the HMI committee has selected her and her family to receive a new home in November 2015 which will give them a decent place to live particularly during the raining season. Thanks to all who helped in any way to make this dream a miraculous reality for this family.**
