

House# 64 - Elissainte Lubin

Elissainte Lubin lives on the same piece of land that she and her sister Pauline (House #63) inherited from their parents. Elissainte is blind and deaf. She has five children and lives with her son, his wife and four grand children. Her physical condition makes her totally dependent on others although she still takes pride in taking care of or "watching over" the little baby shown that she holds in her frail arms when she can. The nightmare that she and her family have experienced for so many years when it rains will finally be ended for Christmas 2015. Thanks to all those with Haiti Mission who continue to make these miracles a reality!
