

Haiti House #66 – Willy Luc

Mr. Willy Luc and his wife have been faithful members of the Church parish of Our Lady of the Assumption in Numero Deux Haiti all their lives. They have sacrificed to have their children educated and trained to be upstanding and moral individuals. Two of their sons play musical instruments in the church choir and have been trained as well-drilling technicians to work with the HMI drilling project. Throughout the years, every penny the Lucs could find went towards helping their children have a better life and nothing on themselves. Both their health and their home have paid a dear price. As you can see by the photos the walls of the Luc home are crumbling and the roof is in such a state of decomposing that a tarp is used inside to try to keep a small area dry during the torrential rains and storms. Through the kind support of HMI supporters, the New Year of 2016 brings a new home, new hope and new dignity to the Willy Luc family. May God bless all who have helped in any way to make this miracle happen.
