

Haiti – House #78 – Michelet and Yvrose Francois

Michelet is a farmer with a wife and 3 children. He has been working for HMI digging the footings for the foundations for the HMI houses since we began building houses, even before the new design was implemented. He is a very hard worker along with his wife Yvrose. They do farming and sell in Jeremie whatever they can produce from the soil. They both try their best and with great sacrifice, try to provide a very good education for their children. Since what Michelet makes working could never afford enough for a new home, the HMI selection team decided to bless his family for the month of July 2016 in order that this family might experience a better and more human life in a new and decent home.
