

Haiti – House #79 Pierre and Lourdie Michel

Pierre and Lourdie Michel have two children and have been living in the dilapidated hut shown in the “before” pictures. Pierre works with the Haiti Mission construction team. He is a very hard worker who has always dreamed of building a decent house where he could live with his family. Even though he was never able to make enough money to build his own house, his hard work and dedication to building houses for others has not gone unnoticed. Based upon his situation and circumstances, the HMI selection committee joyfully selected Pierre and Lourdie to receive a home in July 2016 and make their dream come true.
