

## **Haiti – House #92 – Edna Bazard**

**Edna Bazard has had five children but only has this one pictured in the “Before” picture living with her now since her physically challenged body and desperately dire situation has forced her to place them with other friends and families. The Christmas 2016 HMI team visited her while assessing the damage caused by Hurricane Matthew. Seeing these circumstances and learning her story caused them to begin doing what they could to get her into a new home as soon as practical. Thank God for all who helped in any way to help HMI help this woman and her family.**
