

Haiti – House #95 Eliane Luc

Mrs Eliane LUC is a 75 years old widow. She regularly attends Mass at Our Lady of the Assumption Church She has no children of her own but has raised a number of them. Now she lives with four family members in the predicament you see in the “Before” pictures. She sells whatever she can find and particularly little products from her garden to make a meager living. As of late, her health has weakened after fighting for years to control her high blood pressure and terrible headaches. As of the time that the selection committee advised her that she would be getting a new home, she seems to be feeling much better. The place in which she was living was already in bad shape, but after Hurricane Matthew it became much worse. It brings great joy to HMI to help her move to a new decent place to finish out her life. Thanks and May God bless all who helped in any way to make this dream a reality for Mrs. Eliane.
