

Haiti – House #97 – The Despeines

The Despeines are a young couple in the church parish of Our Lady of the Assumption, being married only four years (March 2017). Hé is 34 and she is 30. Their daughter Noelie is 4. Rosselin is a teacher at the St. Bridget school in the village of Ravine Sable. His wife is a student at a school for kindergarden teachers. They currently live with their in-laws because the rubble in the “Before” pictures is what had to happen after hurricane Matthew destroyed the place where they were living. Because of the serious overcrowding in the house they have been living in since the October 2016 hurricane, their situation has seriously deteriorated. Life there has become “hotter than hell” without exaggerating. As a result, the HMI selection committee has decided to pick them to be a recipient of a new home in order that this family can have a better environment in which to live. Thanks to all who have helped to make this miracle for the Despeines family become a reality.
