

Haiti – House #98 Antoinise and Oswald Justin

Oswald Justin is 90 years old and his wife Antoinise is 83 years old (April of 2017). They live with 5 children in the pathetic place you see in the before pictures. They still do a little farming for a living. One of their children is one of our better teachers at the St. Bridget school in Numero Deux and is very committed to the church parish of Our Lady of the Assumption, always participating in church activities. Helping her parents to live in a decent place after Hurricane Matthew seems to be the best and appropriate thing for HMI to do for this family. Thanks to all who helped make this miracle a reality in their lives.
