

Well # 42 – Cleezan

Cleezan is a small village on the main road from Ravine Sab to Bonbon. After the wells HMI drilled at Nan Champagne, there is no water along the road for this three to four mile stretch until one reaches the town Bonbon and the water there is not always available. Many of our school children walk from Cleezan to go to school in Ravine Sab. This well will be a great blessing to all who live in this community or walk along the road to go to school and to market. God Bless all who helped to make this possible.
