

Well #47 Premier Source Gebeau Haiti

This well in Gebeau Haiti was sponsored by the members of the Gateway Christian Church in West Virginia USA. The members of this church (pictured in front of the classrooms they built along with people from the community) sponsored this well so that the small community of “Premier source” in Gebeau could have a good source of potable water to aid the development of the families there as well as allow the Gateway Christian Church to further evangelize and share the Gospel message by their witness and their good works.
