

## **Haiti - Well #55 Gebrian**

**The Gebrians have been a blessing to the city of Jeremie and the entire area for many years. Their guest home has been a source of joy and relaxation to countless number of visitors during this time. Hurricane Matthew, on October 4<sup>th</sup>, 2016, destroyed virtually all of it. Their original well had gone dry making it very difficult to have a sufficient amount of water for the requirements of a busy place such as theirs. HMI was happy to be able to help bring water to this lovely facility.**
