

Haiti – Well #63 – Mercedes/Therese well sponsored by Renewal Ministries

The community where this well was drilled is a very poor area where the people had been living in very miserable conditions. As funds have become available, HMI has systematically been replacing the huts and crumbling shacks with the lovely four room houses that have become our trademark. The families were also struggling having to travel long distances to fetch water. The people of the area have been praying that one day HMI would be able to drill a borehole in order that they could have a readily available source of water. That day happened when Renewal Ministries and their wonderful donors and some other friends of HMI sent funding that was used for this project. Thanks to all who have helped in any way to bring this life giving water to these people.
