**Public well in Nan Chanpany: Ok.**  
**Public well in Clisan: Ok.**  
**Chicken Farm well in Ravine-Sable: Ok.**

**Gary Bazard, the drilling superintendent for HMI, worked on repairing several wells in October 2019. He repaired the well # [38 in Martineau](#) by replacing the hand pump. On his way back, he noticed a problem with the truck's muffler. So, instead of going to Ravine-sable, he returned to the compound to fix it. The following morning, he repaired the well [Kay en Ron](#) (Well #6) and after getting some diesel, (which was difficult to find at the time) he went to [Ravine-Sable](#) (Well #2) and repaired that well.**

**May the saints apostles Simon and Jude pray for us!**

**Fr. Joe**
