## DISCUSS AND PRAY

When circumstances are unknown like they are during this COVID-19 crisis, fear can grow as an enemy seeking to bring us down. The way to combat fear is with the theological virtue of hope. St.

Thomas Aquinas defines hope as a future good that is difficult to attain but possible through Divine assistance. Because hope is dependent on God to reach the desired good, the means by which to develop hope is through prayer and deepening our relationship with God.

What is one thing that you are thankful to God for this week?

What is something that you are afraid of that I don't know about? (Parent and teen both share).

What is one fear that you have about next school year?

Parents: Share a time when you overcame a fear of something. How did hope help you overcome that fear?

Parents: Share a hope that you have for your teen's future.

What is one way you share your faith with others?

## FAMILY PRAYER

Take some time as a family to pray and reflect with Psalm 91.

Talk about the fear you are each feeling as a family.

*How can you help each other?  
How can you pray for each other?*
