St. Mary's Church

We have plans to restore this beautiful church in the next few years and wanted to share with you the things that make this church so special.

Enjoy the Beauty!

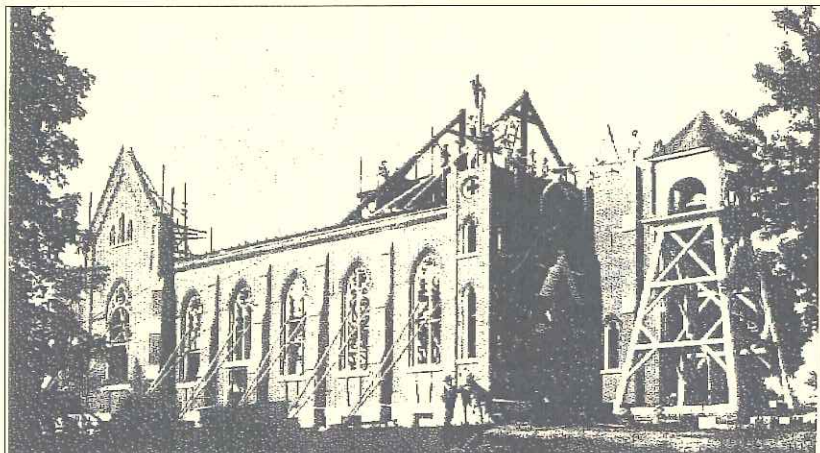

On Christmas Day 1906, Mass was first sung, and on this festive occasion a group of parishioners received their First Holy Communion.

The historic American organ was installed in 1920. There are very few pneumatic Wangerin organs that remain in unaltered condition ours being one of them.

The stained glass was imported from Germany in the late 1800's. In 1905 all the stained glass windows were purchased for \$3000.00. Today, they are insured for half a million but are invaluable to the history of St. Mary's. These stained glass windows were installed as the church was built and were donated by families that are still here in our community. Please feel free to view them up close.
