

Thank you for helping with this special ministry. In the beginning of every month a zip lock bag with Oxiclean and a scoop will be left in the bin where the Purifiers are kept, under the sink in the sacristy for you to use through out the month.

## **New Washing Instructions for the Purifiers**

1. Prepare a presoak in a container with one scoop of the Oxiclean detergent and some Dawn Dish-washing detergent. PLEASE DO NOT USE PEROXIDE.

2. Open up all the Purifiers and put them in the Pre Soak. Soak for at least 1 hour, preferably more if you can. Move the linens around if you can while they are soaking so none are stuck together.

3. Drain the water and proceed to wash the Purifiers in the washing machine. Add one more Scoop of Oxiclean with regular detergent.

4. After they are washed and dried, iron purifiers as shown here:

Purifiers are folded in 3rds then in half. Right side up before folding.
