

Community Volunteer Service Project

Your community volunteer service project should be performed with an attitude of Christian service. The project is to be completed at a school or parish, or for an organization or community sponsored event. This project is not one that you are required to do—it is one that you volunteered to help with. The only compensation you are to receive for this project is knowing that you helped someone. Therefore, the project must not be one you are completing to receive money, grades, points, or to fulfill a requirement for another program.

Please fill in the information below and give this report to your teacher.

Name: _____ Date your project was completed: _____

What service project did you complete: _____

Time spent on service project: _____

Who benefited from your service: _____

How did the person(s) benefit: _____
