Global Headquarters  
200 Technology Square  
Cambridge, MA 02139

Dear Moderna,

I am writing to thank you for the work Moderna has done in vaccine research and development. I, along with millions of Americans, appreciate and support your ongoing efforts to develop effective, safe and widely available vaccines against serious, potentially fatal infectious diseases.

However, I -- along with many Americans -- must also strenuously object to the unethical and unnecessary use of tissue, cells, or cell lines derived from voluntary abortions or human embryos in vaccine design, development or production.

As a nation, we must all work to restore the fundamental principle that the dignity of every human life must be defended from its inception to natural death. This duty is particularly significant for the pharmaceutical industry, whose mission is to safeguard life and health without compromising fundamental ethical standards.

I implore you to work expeditiously toward the goal of developing safe and effective vaccines for the welfare of all without human exploitation and thereby avoid placing anyone in the position of having to choose between being vaccinated against a serious disease or violating his or her conscience.

Sincerely,

**Pfizer Inc.**

235 East 42nd Street

NY, NY 10017

Dear Pfizer,

I am writing to thank you for the work Pfizer has done in vaccine research and development. I, along with millions of Americans, appreciate and support your ongoing efforts to develop effective, safe and widely available vaccines against serious, potentially fatal infectious diseases.

However, I -- along with many Americans -- must also strenuously object to the unethical and unnecessary use of tissue, cells, or cell lines derived from voluntary abortions or human embryos in vaccine design, development or production.

As a nation, we must all work to restore the fundamental principle that the dignity of every human life must be defended from its inception to natural death. This duty is particularly significant for the pharmaceutical industry, whose mission is to safeguard life and health without compromising fundamental ethical standards.

I implore you to work expeditiously toward the goal of developing safe and effective vaccines for the welfare of all without human exploitation and thereby avoid placing anyone in the position of having to choose between being vaccinated against a serious disease or violating his or her conscience.
