INSURANCE AGENTS REPORT	
Brother Matthew Maurin	

Are you frustrated with paying yearly income taxes on savings that are intended for long term goals? Then it's time for you to get the information on the strategies that can provide tax advantages on your money. In our early working years, working years we made money to pay our monthly bills. Shortly thereafter, we began saving for our first home. But during our middle years we began to realize the seriousness of putting aside money for longer-term objectives. That's why many people embrace financial strategies that not only have the potential of building value for your future financial goals, but may also provide beneficial tax advantages during their growth phase and during the distribution phase. It's important to save money, because some long-term goals don't offer second chances. But it's also important to embrace tax advantaged strategies when available - ones that have the ability to potentially reduce defer or even eliminate taxes. With so much to gain ask for the facts. The facts may illustrate ways for you to achieve tax advantages on money or setting aside for longer term objectives. That's a strategy that has the potential of delivering a big advantage to the quality of your financial life.

As always if you have any questions please contact me.

With Age Comes Wisdom

We were all at a deer camp. No one wanted to room with Bob, because he snored so badly. We decided it wasn't fair to make one of them stay with him the whole time, so we voted to take turns.

The first guy slept with Bob and comes to breakfast the next morning with his hair a mess and his eyes all bloodshot. We said, "Man, what happened to you? He said, "Bob snored so loudly, I just sat up and watched him all night."

The next night it was a different guy's turn. In the morning, same thing, hair all standing up, eyes all bloodshot. We said, "Man, what happened to you? You look awful! He said, 'Man, that Bob shakes the roof with his snoring. I watched him all night."

The third night was Fred's turn. Fred was a tanned, older cowboy, a man's man. The next morning he came to breakfast bright-eyed and bushy-tailed. "Good morning!" he said. We couldn't believe it. We said, "Man, what happened?"

He said, "Well, we got ready for bed. I went and tucked Bob into bed, patted him on the butt, and kissed him good night. Bob sat up and watched me all night."
