**From the Desk of Deacon Dennis Popowski**

**Praise the Lord our God from Whom all blessings Flow!!!**

I have been informed that a baby born pre-mature may have more medical problems. I was born before seven months at 4lbs. 12oz. and was in an incubator for a couple weeks. Later in the first year I went into convulsions and my Grandpa said "bury him." My Mother took me to the Hospital and all turned out well. At age four I had to have my appendix removed. When I was a junior in High School I came down with Rheumatoid Arthritis for six weeks. It moves around in your body and makes your joints and flesh swell up with pain. One does not want it to stay in one area very long as it will cause extensive damage. It took 13 aspirins a day and went dormant after 6 weeks. Nine years ago I came down with the Guillian-Barre' Syndrome in which the insulation on the nerves is damaged and removed. It becomes a paralyzing disorder in which I lost my legs, feet, hands and arms resulting in no strength or mobility. I could not floss my teeth, write my name, or walk very well. It can go into lungs or other organs. People do die from it. Prayers were answered. I was treated with a high dose intravenous immune globulins and it stopped the destruction of my body. It was an answer to prayer that I recovered as well as I did. Two years ago I was diagnosed with Osteoporosis of the lower back that ties your back and hips together with low bone density as a result. I am on medication for it.

March 19<sup>th</sup> of this year the Rheumatoid Arthritis came back to haunt me. It took a long time before it was figured out. The Mayo Clinic team of the Pulmonary (lung) and the Arthritic Department diagnosed what was happening. I have what is called Interstitial Lung Disease caused by Episodic Rheumatoid Arthritis. This is the 2<sup>nd</sup> case that the main lung doctor has seen. It has damaged both lungs so I had only 58% breathing capacity. I was put on medicine to take down inflammation. I unbelievably increased to 67% in three months' time!!! The Arthritic Doctor said my RA factor is very high, plus it's rare that being Episodic it can come and go. Five weeks ago the deep coughing and times when I would cough my guts out quit. But a week later it came back into my joints. It first came to my hips, shoulders, arms, then to my hands and wrists. Two separate nights I was kept awake with severe pain. They swell up half again as big and feel like being stabbed with a twisted fork. X-rays show no damage of concern to the joints. Thank God for the last 12 days the Episodic Rheumatoid Arthritis is at rest!!!! I am also on a medication to keep it at bay. I have prayed for endurance. My wife and many of you are praying the "Mary Mediatrix of All Graces" prayers for healing and a miracle. Thanks and praise to God and thank you to all for your prayers. Prayers are powerful and very much appreciated!!!!

Listen to the story of that apparition, which has forever changed the culture in all of North America.
- Movie: Skiff & AJ's Fantastic Voyage: When Skiff and AJ test—drive their homemade time machine, it shrinks them to a gnat size.
