

# DID YOU KNOW BY DEACON AL

## THE PERFECT ONE

There is but one perfect human being that walked on this earth, and his name is Jesus Christ. Jesus founded the Church and left it in the hands of man to grow, and grow it did, but not without pains. Let's go back to the creation of man. God created man and gave him dominion over everything, making him a little less than a God. Man, instead of living in harmony with God, man plays God himself. He searches for his own wants, needs, and desires away from what God had intended for man. Jesus, being fully aware of man's nature, put the Church in the hands of man guided by the Holy Spirit. Over time, man has made a muddy mess of things and Jesus has been right in that muddy mess with us, to grow His Church and to get us out of the mud and back on track. Shouldn't we, as man, have that same faith, love, compassion, mercy and forgiveness for one another that Christ has for us? Never forget that Jesus is right there beside us in the mud, helping us to get unstuck and to move out of the mud. Instead of refusing his hand and being stuck in the mud, trying to do it ourselves, grab Jesus by the hand and let Him lead you out of the mud. Do you feel stuck in the mud sometimes?
