

DID YOU KNOW BY DEACON AL

CLEARER VISION

One early November rainy day, I looked out the window watching the rain fall forming dirty or muddy puddles of water. The ditches too were flowing with muddy water. Then I remember how clear the water becomes after the rain in a few days, that allows me to see what was really there. I can see clearly to the bottom. We cannot see the things hidden in the muddy waters of the storm. With Jesus at your side, He will help you see the things hidden in the muddy waters. In the muddy waters of life, we need to hold on to that one rock that can never be moved or washed away by the raging waters of the storms of life. Jesus Christ is the immovable rock that we should cling too. He can and will help you to see through the muddy waters if you cling to the rock that saves us. After the storm ends, the water becomes clear in a short time. Sometimes we cannot see clearly in life, but we have Jesus to guide us through those muddy waters of life, then we are able to see clearly. How do you see the rain in the puddles? What do you cling to in the storms of life?
