

# DID YOU KNOW BY DEACON AL

## **HAS COVID-19 CHANGED THE WORLD?**

During Covid it seemed like our world changed. We shopped online instead of in the store. We ordered groceries from the list on our cell phones and paid for them, then drove to the store and had them brought out and put in our cars. Some of us were content watching Mass on TV, instead of coming to church. All these things were very convenient and were intended for the good of mankind to get the things we needed during Covid. I am not referring to those folks who can't do these things due to health reasons or specific reasons. I believe God created us to be communal people and that is hard for us to do when we are isolated from the world. I believe we adapted to it and now it is a way of life. I don't know about you, but I need that personal touch. I like to see and touch what I am buying. I need that community of people in the church. I need to see your smiling faces, with handshakes and hugs. When I see you, you give a gift you don't know you are giving. It is the gift of community, love, and faith. How do you see the world?
