

## Daily Health Policies

**NO MEDICATIONS OF ANY KIND MAY BE BROUGHT TO SCHOOL OR SENT IN WITH YOUR CHILD!** If your child is ill enough to require medication, PLEASE keep him/her at home.

If your child has run a fever or vomited at home **PLEASE DO NOT bring him/her to school.** Your child should stay at home for at least **24 hours** after they have stopped vomiting and have a normal temperature without Tylenol.

If your child complains of an earache, has a bad cough, runny nose and is **congested with a common cold, PLEASE KEEP THEM AT HOME.** They are **in very close contact at school with other children and if they come to school** with a bad cold, it will just spread to their classmates and put the school personnel at risk as well.

Please call the school if your child will not be in school on an assigned day for any reason.

Please notify the school before hand if your child is going to be away for an extended period of time.

**PLEASE ALERT the teachers** of any allergies, medical problems, or restrictions of activities your child may have at the beginning of the school year.
