

St. George Home & School

Welcome to the St. George Home and School Association!

The St. George Home and School Association provides an important service in bringing together parents, educators and staff at our school. **Parents who have a student enrolled at St. George are considered active members of the Home and School Association.**

Purpose:

The Home and School Association is fundamentally an educational organization whose purpose is to:

- advance the Catholic education and welfare of all St. George School students
- promote parent-school activities
- increase interest in education and community

The Home and School Association runs many successful events throughout the school year, which generate needed funds for the schools operating budget. The funds that we raise from these fundraisers are carefully allocated to best support the curriculum and the needs of the students and staff of St. George. With a tight school budget, the efforts of the Home and School Association are key in helping to provide our students and staff with all the opportunities they so greatly deserve.

It would not be possible to assist with the school budget without the amazing parent volunteers who make up the St. George Home and School Association.

Please see the attached sheet for a tentative schedule of Home and School events, mark your calendars, and plan to join us in making this year successful.
