

PARISH UPDATES ON THE COMPLETED AND ONGOING WORK AT ST. FELIX

Stations of the Cross Restoration

Twelve of the fourteen Stations of the Cross have been restored by parishioners Jean Matheny and Jay Anderson. That effort involved taking the original painting back to its plaster foundation, restoring and painting. Jay has repaired the hand carved frames.

Thank you, Jean and Jay for sharing your talents with St Felix. -Fr. Tom

Music Ministry

Music Ministry is a vital part of our liturgical celebrations. More voices are always welcome. The sound systems for St Felix have been upgraded to balance the vocal presentation with the organ and other accompanying instruments. Thanks to all our choir members and musicians. Join your voices with them to praise and worship.

Air Conditioning

Air Conditioning during the warm and humid summer months requires ongoing adjustments and balancing following repairs to external façade. Thanks to Willard and Hartert Plumbing and Heating for balancing the air volume in the church, prior to refurbishing the entrance doors of the church.

Outdoor Lighting for St Felix Entrances

As parishioners approach St Felix Church, many have commented on how attractive it looks with the brick work and painting now nearly completed. The elevation of the sidewalk has eliminated one step to enter the church. Hall Electric worked on the church's three streetlights with new paint and bulbs, to better light entrances as the days shorten. Thank you, Bruce.
