

What is the Development Ministry and Charter?

In 2018, Fr. Ramon directed the Parish Council to develop a long-range Parish Plan for St. Elizabeth. The creation of the Development Ministry is a foundational aspect of building that Parish Plan. The Development Ministry, working under the Parish Council, will spearhead the creation of the Parish Plan using input from the Parish Council, and Parishioners via the recent Parish Survey. As outlined above, the Development Ministry Charter sets forth the expectation of operation of this Ministry and establishes an initial road map for its functions. This Charter will be updated as needed to reflect changes in the functions or roadmap as this Ministry emerges and gathers experience.
