

Building Connection “At Home”

Registration is open!

Building Connections is our Children’s Faith Formation Program for children 1st through 5th grade. We are offering Building Connections “At Home” for this fall. We are working to create as much of an interactive, fun and community building experience as possible! Providing families with both an online presence and resources that are hands on and don’t require a computer to enjoy.

This year, beginning in November, we are focusing on **Jesus Parables**. These timeless parable stories are rich in meaning and speak to us at any age. Drawing us into Jesus teachings about God’s love, the Kingdom of God and our call to live our faith daily with one another.

Building Connection Flipgrid weekly enrichment opportunities will allow us to interact using a variety of methods and media. (i.e.: God Sightings, community building activities, prayer, Bible stories, Books, videos, insights and teachings, reflection questions and discussions,) the children will login to this app and participate in the topics, uploading their video responses and they can see each other’s short videos, too. This is an awesome way for us to get to know each other and share our faith and reflections with each other.

In addition, the children will automatically be registered for the **My Catholic Faith Delivered** program. **MCFD** program is an online - self-paced grade level resource that teaches the children the basics about our Catholic Faith. There will be more detailed information about this program available when you register.

We will continually review and evaluate the situation and if we are able to return to "in person" gathered Children's Faith Formation Programs in the future we will let families know. But for now through December, this is our plan. I look forward to working with your family this year.

This year we are asking for a reduced rate of \$ 50 tuition fee for each child. (\$21 for MCFD and \$29 for our weekly Building Connections program resources.)

SO Please:

1. Complete your registration form [here](#)
2. Pay the program fee of \$50 [here](#)
3. Submit the permission form for your child to use our FLIP GRID program [here](#)

As soon as you complete these 3 steps you will be fully registered and ready to begin.

If you have any other questions or concerns, please feel free to email me at children.family@mqp.org.

I look forward to working with your family in this upcoming year!

Blessings,

Jennie
