PARENT TESTIMONIALS

"I choose IC for the faith based education my son would receive along with smaller class sizes that give the teachers more opportunity to work one on one with the students. I also value the fact that they hold the students accountable and teach self-discipline and responsibility.

A few years later I felt and the teachers agreed that my son was struggling too much for as smart as he is. The school diagnosed his learning disability and implemented changes in his classroom to accommodate his Auditory Processing Disorder.

The Auditory Department at Clarion University is working with my son now. When they were evaluating him they asked what the school was doing to accommodate him. When I told them everything that the school was doing for him, the head of the Auditory Department stated that he was in the best school in Clarion County he can be in for his disorder!" ~N. D.

"At the Immaculate Conception School the faculty and staff work with each child to determine specific needs and identify their strengths. The small class sizes and Christian based environment have provided an atmosphere where our children have thrived and grown in both academics and in their spirituality. This school has been such a blessing and we are thankful to have local options for our children's education." ~K.M.

TUITION ASSISTANCE
