

SCHOLARSHIP SUPPORT EXPANDS ACCESS TO CATHOLIC EDUCATION

For families in Clarion County, this funding is more than a financial award—it is an opportunity. Through Pennsylvania’s Educational Improvement Tax Credit (EITC) program, these scholarships help make Catholic education accessible to families who may not have otherwise considered it possible.

As the only school represented from Clarion County, Immaculate Conception School stands at the center of this opportunity—connecting local families with the resources they need to choose a faith-based education for their children.

This support strengthens the school’s mission—ensuring that more children in Clarion County can benefit from a values-based education that prepares them for academic success and a life of purpose.

A TRADITION OF FAITH. A FUTURE OF PROMISE.

For more than 160 years, Immaculate Conception School has been forming students in body, mind and soul. Serving preschool through sixth grade, the school provides a strong academic foundation rooted in Catholic values while welcoming families of all backgrounds.

Students are known and supported as individuals, with a focus on spiritual, intellectual, social and physical development. Small class sizes, dedicated teachers and a commitment to academic excellence create an environment where students are encouraged to grow, achieve and lead.
