

Crosiers carry Cross throughout Indonesia

The Crosier Fathers and Brothers have been serving the people of Indonesia for nearly 90 years. The people of Asmat continue to seek help from the Crosiers to guide them to a life balanced with the Christian way of life. In 1958, the Crosiers began serving the Asmat people in the region of Papua, Indonesia. The physical needs of the Asmat people are very great, their homes are always sparse and diseases such as tuberculosis and malaria are widespread. The population of nearly 70,000 are scattered across 100 villages in a territory of roughly 16,875 square miles. There are 150 Indonesian Crosiers living and ministering in different areas of Indonesia.

Through their strong commitment to education, the Crosiers founded the first Catholic university in Indonesia. They also established the Holy Cross Foundation, which provides education from kindergarten to high school throughout the Diocese of Bandung, and employs nearly 5,000 teachers and other workers.

In 1972, the Crosiers began Bina Cahya, a Catholic vocational-technical school in Bandung to serve children from low-income families. This school, whose name translates to “becoming a light for others,” connects the Catholic Church and the whole of society in Indonesia. The vocational school prepares students for entering the workforce. The curriculum focuses primarily on the practical skills of different trades such as electrical, carpentry, construction, farming, culinary and sewing.

Eighty percent of graduates work in several factories, mechanic shops, restaurants and garment factories around the city. Others have become entrepreneurs. With a variety of programs offered at the school, it is an example of a place of light and hope where people of different faiths can coexist as brothers and sisters. In this educational environment, we encourage the students to become good examples of unity in diversity in a country that is rich in cultures, religions and races.

Crosiers empower the people of Asmat

Helping the Asmat people with social-economic, education and health challenges is a pastoral priority. Currently, 10 Crosiers from Indonesia serve four parishes in the Diocese of Agats. They minister in many ways: pastoral and faith service; spiritual direction; Masses and sacramental services; education/schools; health and wellness and socio-economic education.

The Crosier Community in Papua serves the Diocese of Agats. It produces altar candles and altar bread for local parishes in the region, which helps sustain the Crosier Mission.

Crosiers provide ongoing formation to educate and train lay men and women to encourage others to live the Christian way of life. The Crosiers strive to help empower the people of

Papua by teaching them self-sustainability. Funding is vital to send local people to study to become catechists, teachers and nurses. Critical funds are also needed to support the Crosier mission in Indonesia and its numerous ministries.

The Crosiers, officially the Canons Regular of the Order of the Holy Cross, are a worldwide religious order of consecrated men whose mission is to touch suffering with hope. They spend their lives in service and provide spiritual support to communities where they are needed most. There are two communities in the United States—one in Phoenix, Arizona, and the other in Onamia, Minnesota. Crosiers also live and serve in Europe, Indonesia, the Democratic Republic of Congo and Brazil. www.crosier.org
