God blessed me with my wonderful wife Janae and our amazing kids and grandkids. We led a very ordinary life and thoroughly enjoyed our new life when we moved to Sleepy Eye in 1997. At that time our two oldest children, Michelle and Doc had graduated from high school and our youngest daughter, McKayla insisted on attending St Mary's. All was well. In May 2011, I was diagnosed with lymphoma. The tumor was about the size of a football. I went to the Mayo Clinic to begin chemotherapy treatment. After 6 cycles I was in remission. About 6 months later I had a relapse. Since that time, we have been through many treatments, chemotherapies, labs, tests, scans, biopsies and consultations. I have also had the opportunity to participate in a number of clinical research studies. By the grace of God, I pray that many future patients will enjoy the benefits of those studies. We gratefully thank God for our many friends, the community support and the amazing medical teams in Sleepy Eye and Rochester. We are very grateful that God continues to fill our lives with many blessings and opportunities.

May God fill your lives with many blessings.
